- C# ASP.NET web applications
- T-SQL databases, design and coupling to legacy systems

awards

2013

Cake

University of Twente, 19th Twente Student Conference on IT

Cake for *Best Poster and Explanation* for team project: Solver for GearSketch

communication skills

software: With design experience in software teams I am well versed in the discussions around design choices. I can explain and defend my choices, and accept when the final design will not be as I envisioned.

client wishes: I have done some work for my own company where I discuss the client's wishes with them. When I do live A/V work for parties, weddings or funerals I ask the client their wishes, and show what I can do for them.

presentation: With various jobs in education, I have experience in how to present information in a way that improves clarity and facilitates understanding.

print production: Though not particularly talented at graphical design, I have some insight into the process of transferring digital media to print, using free tools such as GIMP, Inkscape, ΛT_EX, etcetera.

interests

professional: internet of things, information security, system security, UNIX-like operating systems, computer hardware, software, FOSS software, software licenses, information law, source management

personal: books (fantasy, sci-fi), hacking hardware and software, GNU/Linux, Arduino, OpenMW, Raspberry Pi, domotics, rocket science, and many other things

religious: Christian (Brunstad Christian Church)
