awards

2013	<b>Cake</b> Cake for <i>Best Poster and Explanation</i> for team project: Solver for GearSketch	University of Twente, 19 <sup>th</sup> Twente Student Conference on IT
------	--	--

communication skills

**software:** With design experience in software teams I am well versed in the discussions around design choices. I can explain and defend my choices, and accept when the final design will not be as I envisioned.

**client wishes:** I have done some work for my own company where I discuss the client's wishes with them. When I do live A/V work for parties, weddings or funerals I ask the client their wishes, and show what I can do for them.

**presentation:** With various jobs in education, I have experience in how to present information in a way that improves clarity and facilitates understanding.

**print production:** Though not particularly talented at graphical design, I have some insight into the process of transferring digital media to print, using free tools such as GIMP, Inkscape, LaTeX, etcetera.

interests

**professional:** internet of things, information security, system security, UNIX-like operating systems, computer hardware, software, FOSS software, software licenses, information law, source management

**personal:** books (fantasy, sci-fi), hacking hardware and software, GNU/Linux, Arduino, OpenMW, Raspberry Pi, domotics, rocket science, and many other things

**religious:** Christian (Brunstad Christian Church)
